To the Stockholders and Board of Directors of Trans American Equities Corporation:

We have audited the balance sheet of Trans American Equities Corporation as of December 31, 2001 and the related statements of income and retained earnings, cash flows and changes in shareholders' equity. These financial statements are the responsibility of the Trans American Equities Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Trans American Equities Corporation at December 31, 2001 and the results of their operations and their cash flows for the year ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

SUPPLEMENTAL REPORT

Material Inadequacies

Computation of Net Capital and Reserve Requirements

To the Stockholders and Board of Directors of Trans American Equities Corporation:

We have examined the financial statements of Trans American Equities Corporation for the year ended December 31, 2001, and have issued our report dated January 16, 2001. As a part of our examination, we reviewed and tested the Corporation's system of internal accounting and operational procedures with respect to material inadequacies, the prior unaudited internal computation of Net Capital and Reserve Requirements and the computation of changes in stockholders' equity. Our review also took into consideration the audit requirements pursuant to Securities and Exchange Rule 17a-5(d)(1).

We found no material inadequacies as to the Corporation's system of internal accounting controls or its operational procedures.

A reconciliation between the audited computation of Net Worth and 15c3-3 Reserve Requirements and the Corporation's unaudited Part II reflected no differences.

This report is solely intended for use in meeting compliance requirements as set forth in the Securities and Exchange Commission Rule 17a-5(d)(1) and is to be considered an integral part of our report dated January 17, 2002.
